PROFESSIONAL SUMMARY

Motivated AI & Machine Learning diploma student with hands-on experience building full-stack intelligent applications, data analysis tools, and interactive web projects. Skilled in Python, React, FastAPI, and AI integration with a strong passion for solving real-world problems through modern technologies.

EDUCATION

Diploma in AI & Machine Learning

Rajarambapu Institute of Technology, Pune

2024 – 2027

Pune, India

TECHNICAL SKILLS

Languages

Python, Java, HTML, CSS, JavaScript, SQL

Frontend

React, Streamlit, Tailwind CSS

Backend

FastAPI, Uvicorn, REST APIs

ML / AI

Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn

Tools

Git, GitHub, VS Code, Jupyter Notebook

CERTIFICATIONS

- Oracle AI Foundations Associate
- AWS Certification

PROJECTS

AI Code Reviewer

<https://github.com/jonsnow273/CodeReviewer>

- Built a full-stack web app using Groq AI (Llama 3.3 70B) to review and debug code.
- Integrated Monaco Editor into React for native code-editing experience.
- Developed FastAPI backend with REST APIs and LLM integration.
- Tech Stack: React, FastAPI, Python, Groq API, Monaco Editor, Axios

Movie Analyser

<https://github.com/jonsnow273/MovieAnalyser>

- Built a movie analysis app using Streamlit and OMDb API.
- Implemented visual analysis for ratings, genres, and release trends.
- Tech Stack: Python, Streamlit, OMDb API, Data Analysis

Quiz App

<https://github.com/jonsnow273/Quiz-App>

- Built interactive quiz app with timer and Fisher-Yates shuffle.
- Implemented dark mode and deployed using GitHub Pages.
- Tech Stack: JavaScript, HTML/CSS, GitHub Pages
